

Follow each panel left to right. ▶ **natural breath / movement flow**

This is one linked form. Follow the panels in order; every boundary posture is repeated.

OPENING · 起势

Settle

BREATHE NATURALLY

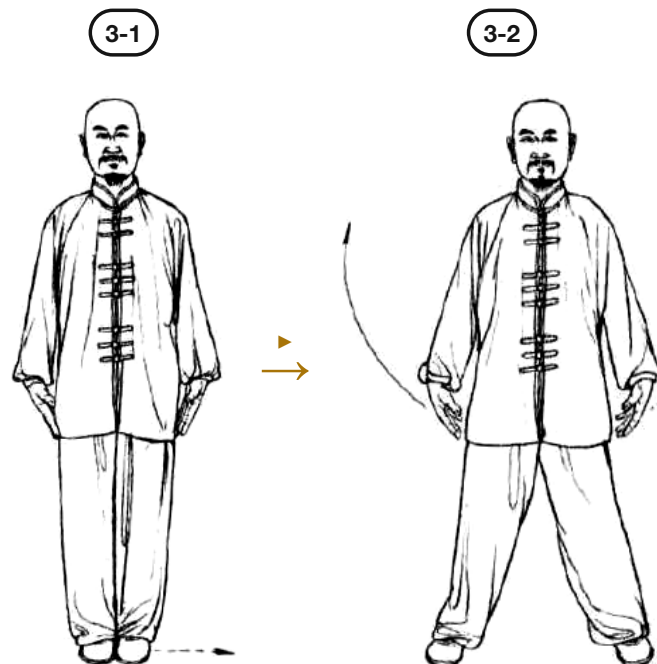

Stand with the feet together and palms at the sides. Keep the head upright, lips lightly closed, and breathe through the nose. Settle attention at the lower dantian for about one minute.

Step out

BREATHE NATURALLY

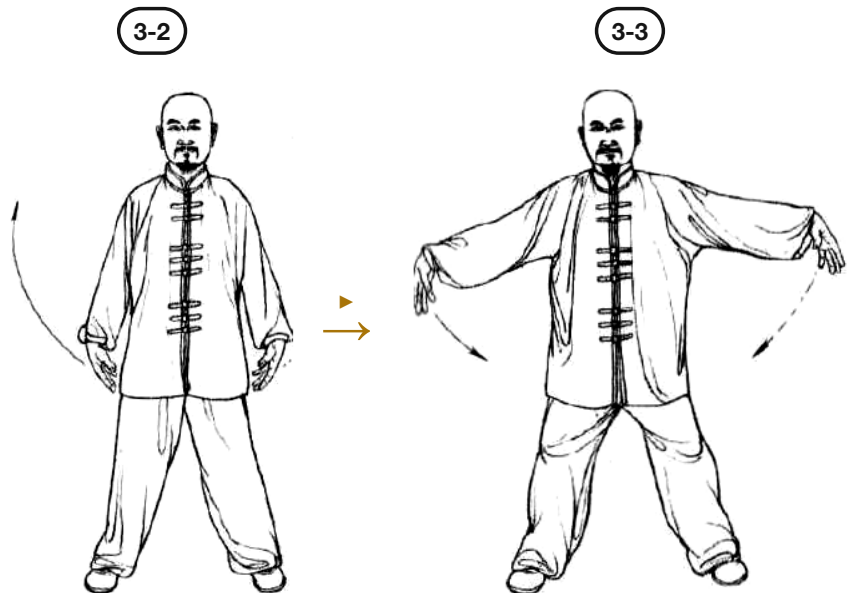

Step the left foot sideways to a stance slightly wider than the shoulders.

Open the palms

BREATHE NATURALLY

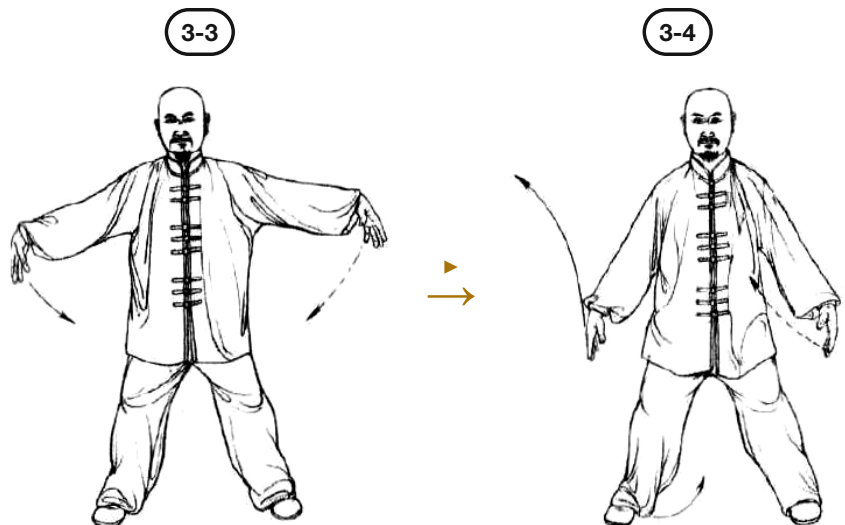

Open both palms beside the body, fingers down and palms inward. Raise them toward chest height while softly bending the knees.

Lower

BREATHE NATURALLY

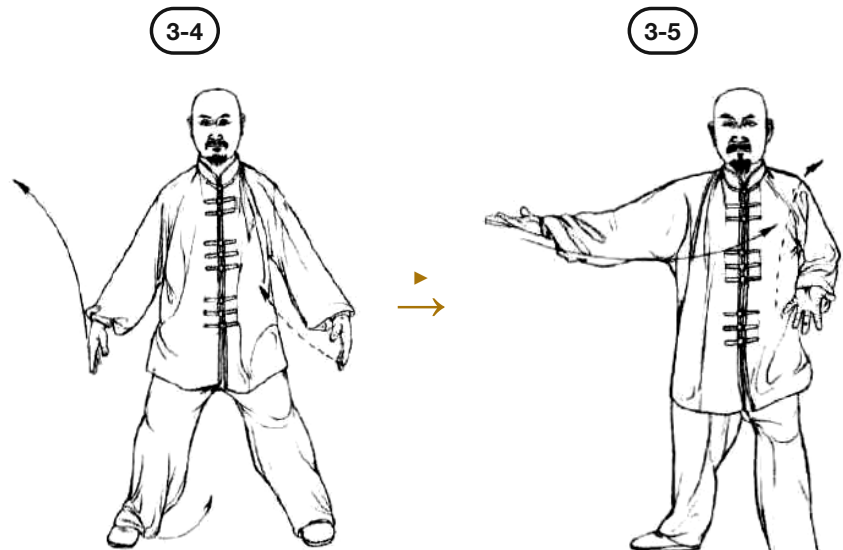

Relax the limbs and keep the head and neck upright. Let both palms descend naturally.

Bow stance

BREATHE NATURALLY

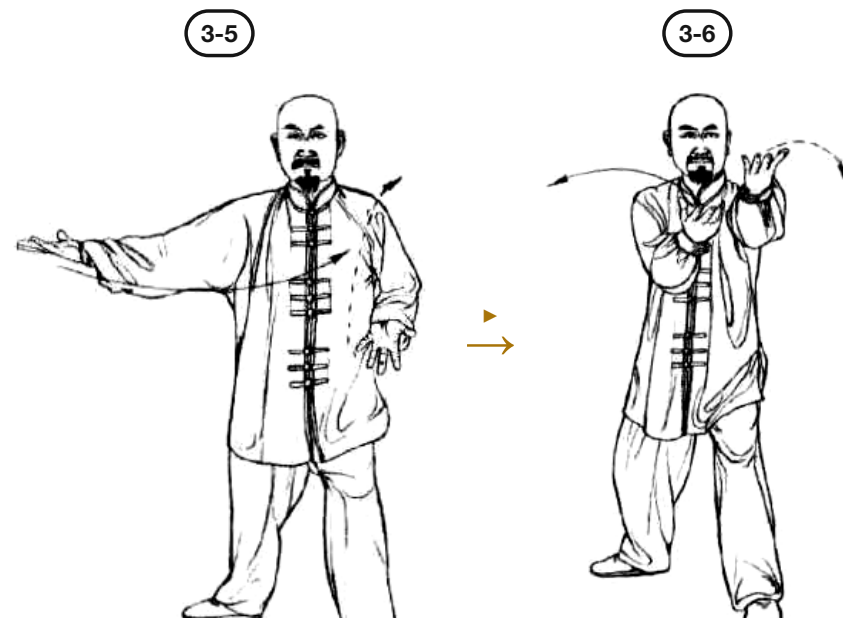

Step the right foot back and bend the left knee into a left bow stance. Turn the left palm forward at the waist while the right arm reaches to the right at shoulder height.

Left palm forward

BREATHE NATURALLY

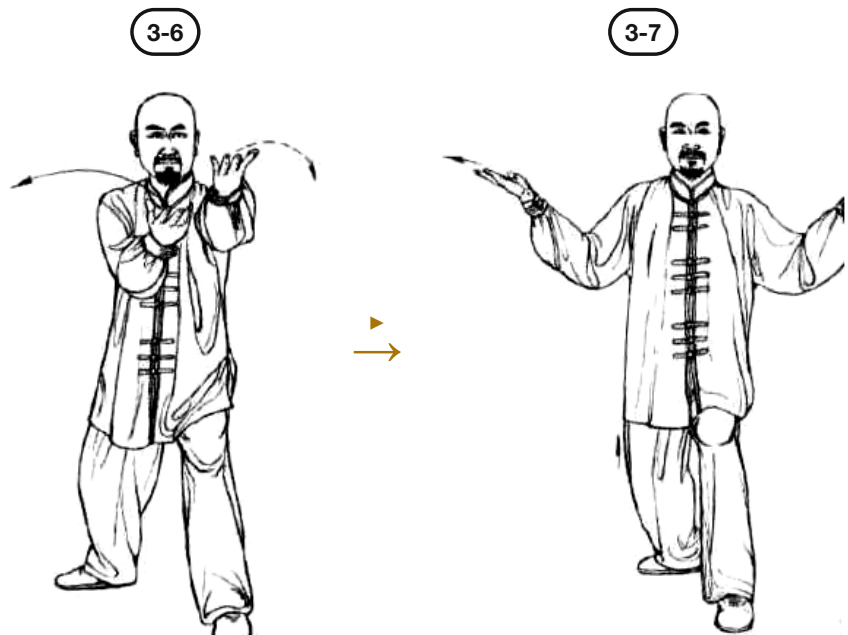

Drive the left palm forward to shoulder height while drawing the right palm across toward the left side of the chest.

Crane wings

BREATHE NATURALLY

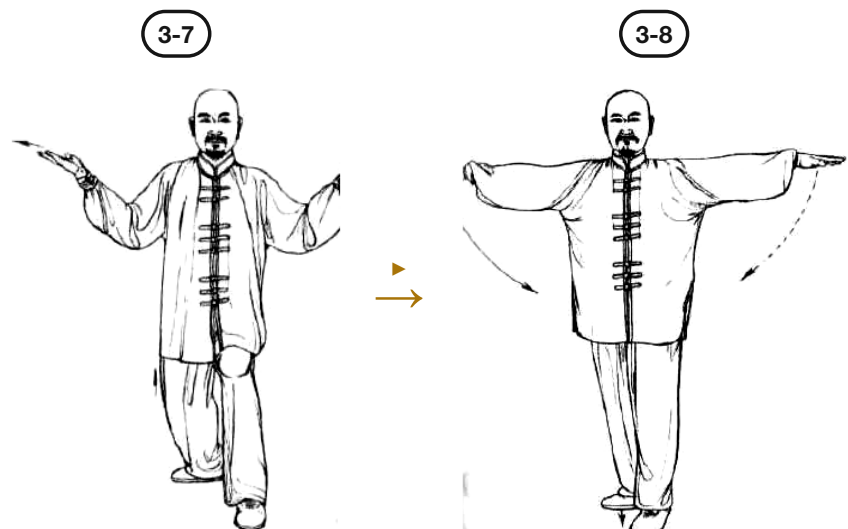

Separate both hands to the sides. Bend the elbows, let the fingertips point down, and turn the palms upward slightly above shoulder height.

Rise and extend

BREATHE NATURALLY

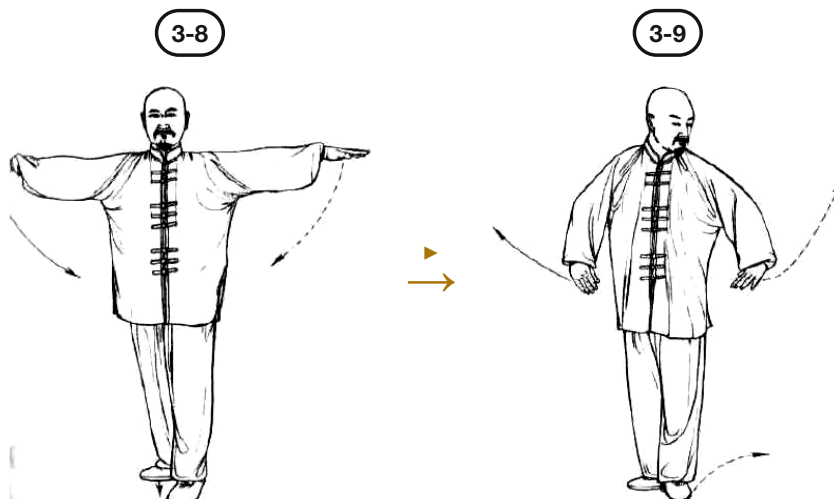

Push through the right leg to rise. Rotate both palms down and extend the arms sideways at shoulder height.

Cross-step press

BREATHE NATURALLY

Cross the right foot behind the left into a T-step. Press the palms down with elbows lifted and fingers turned inward; turn the head left and look down-left.

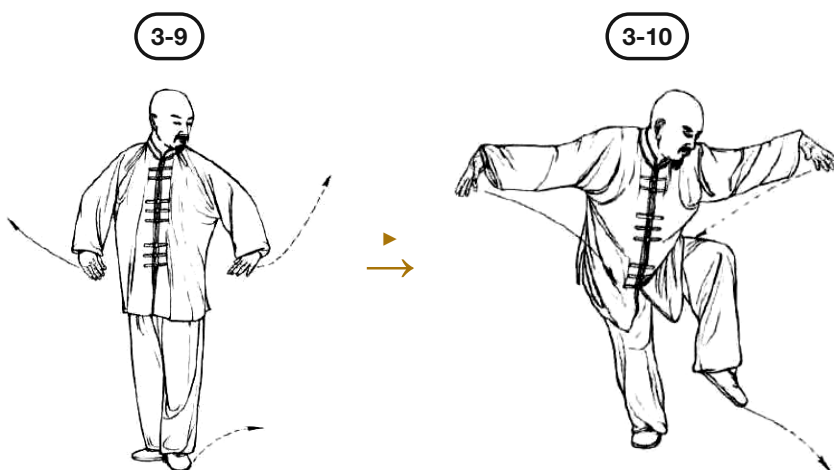

CRANE EXPLORES THE ROAD · 仙鹤探路

Lift left knee

BREATHE NATURALLY

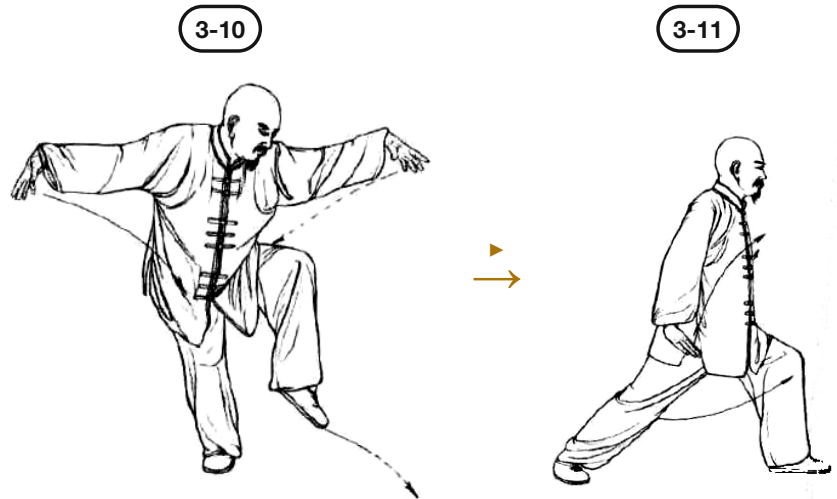

Shift weight to the right and lift the left knee outward, toes down. Retract the neck and open the arms like crane wings; look forward and slightly down.

Land left bow

BREATHE NATURALLY

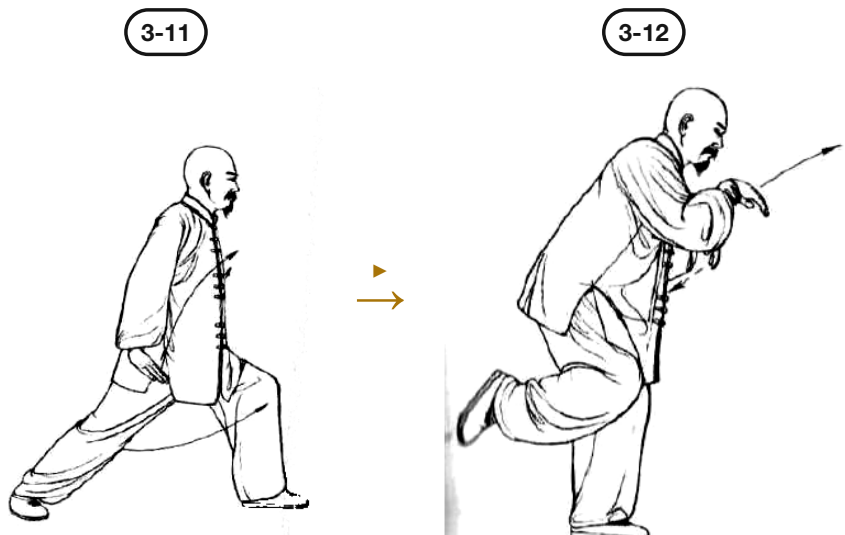

Turn left and land the left foot into a left bow stance. Extend the palms outside the thighs, seat the wrists, and lift the chest and head.

Lift right knee

BREATHE NATURALLY

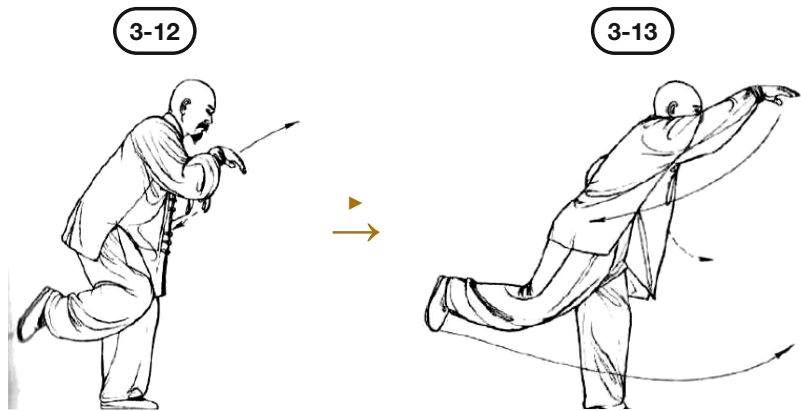

Shift onto the left leg and lift the right knee, toes back and down. Hold the right hand by the chest, palm down; place the left hand near the inside of the right upper arm.

Balance forward

BREATHE NATURALLY

Extend the right leg back as the torso inclines forward. Reach the right palm toward forehead height, palm down, while the left arm reaches back, palm up.

CRANE EXTENDS THE LEG · 仙鹤伸腿

Kick right

BREATHE NATURALLY

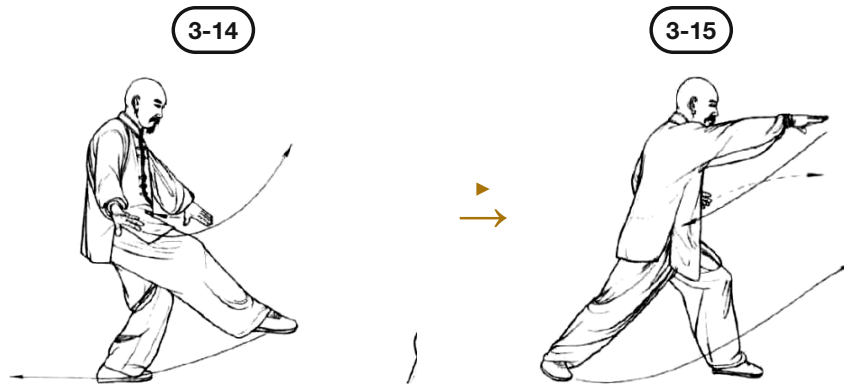

Kick the right foot forward to about left-knee height, foot level. Extend both arms sideways near waist height, palms down, and look toward the right foot.

Land and press

BREATHE NATURALLY

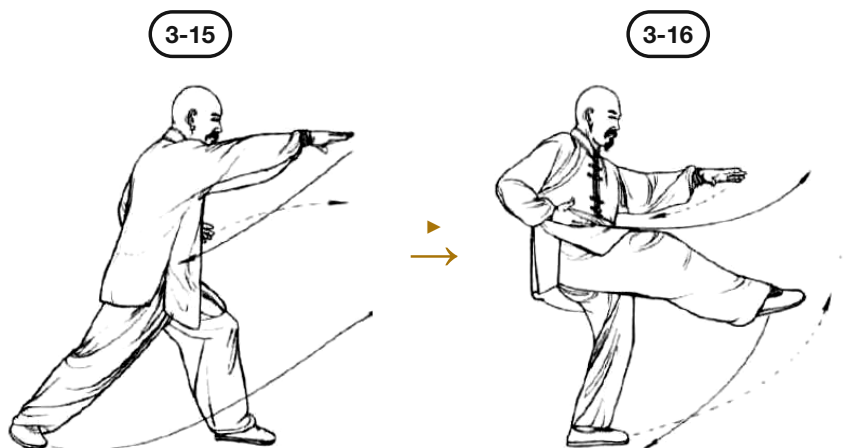

Retract, then place the right foot to form a left bow stance. Press the right palm forward at shoulder height; hold the left palm at the waist.

Kick and switch

BREATHE NATURALLY

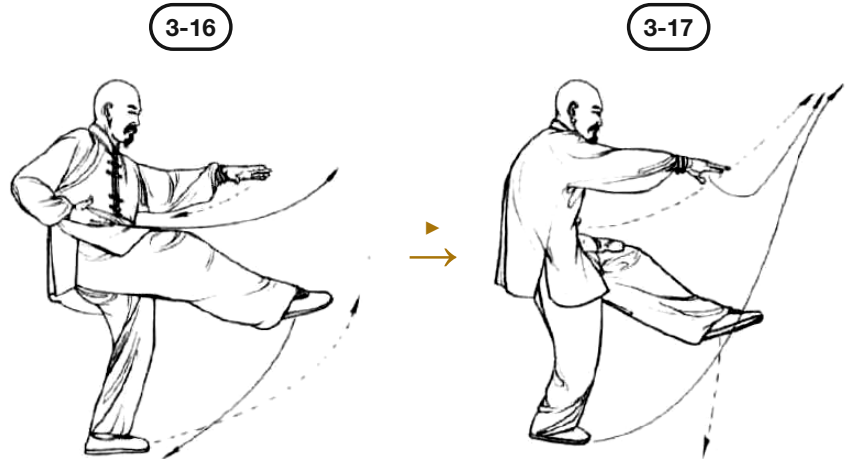

Draw the right palm to the right waist, palm up. Kick the right foot forward while the left palm presses forward at shoulder height, palm down.

Alternate kick

BREATHE NATURALLY

Land the right foot in front of the left, then kick the left foot forward. Return the left palm to the waist and press the right palm forward.

SPIRIT CRANE DESCENDS · 灵鹤降凡

High right kick

BREATHE NATURALLY

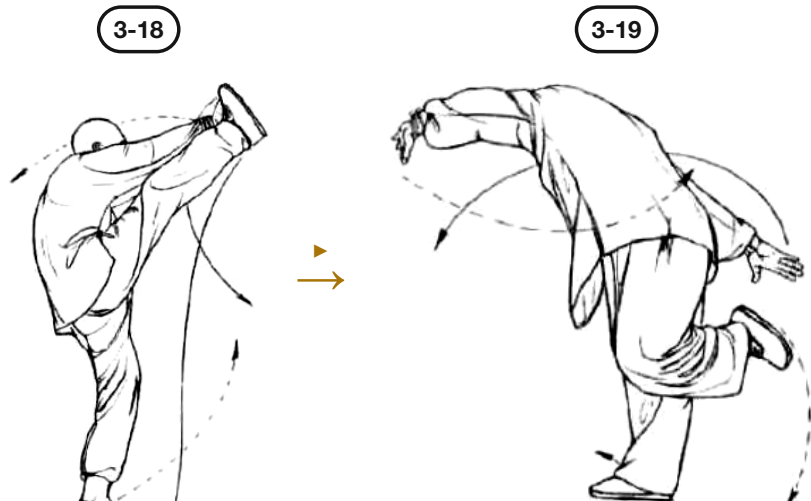

Land the left foot forward and kick the right foot upward toward head height—or a comfortable lower height. Meet the right foot with the right palm.

Turn and sweep

BREATHE NATURALLY

Land the right foot beside the left and turn left. Sweep the bent left leg behind, sole up; extend the arms left-high and right-low, then turn the head right to look toward the left foot.

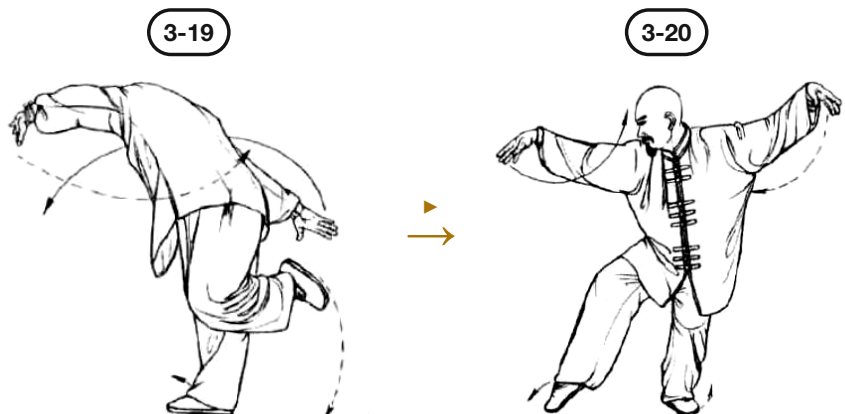

WHITE CRANE SEEKS FOOD · 白鹤寻食

Set the empty stance

BREATHE NATURALLY

Turn left and land the left foot. Sink slightly and touch the right toe into a right T-step. Open the arms with softened elbows and wrists; lengthen the crane neck and let the gaze follow the right hand.

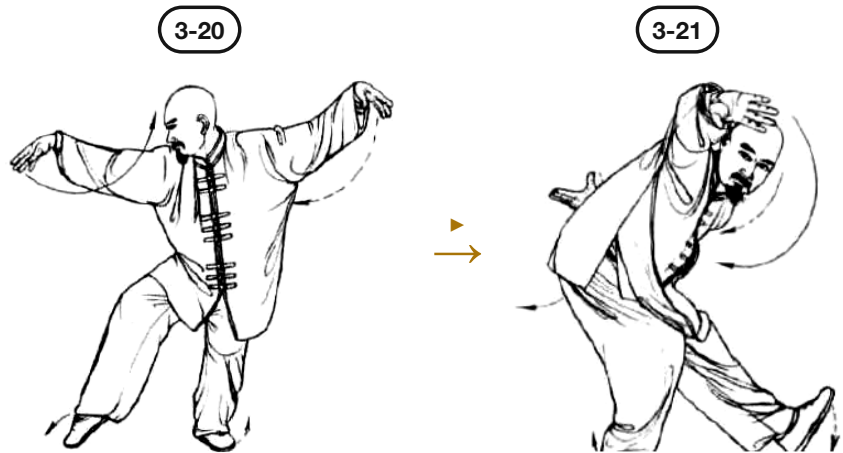

SPIRIT CRANE BATHES · 灵鹤沐浴

Scoop diagonally

BREATHE NATURALLY

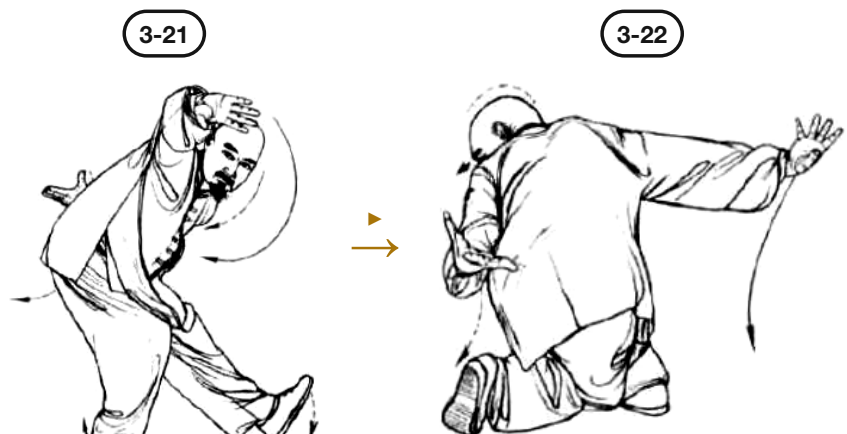

Lower the right heel, turn the feet left, and settle into a left empty stance. Scoop the left palm low behind the left waist and the right palm high to the right; incline front-left while looking right.

Turn and reach back

BREATHE NATURALLY

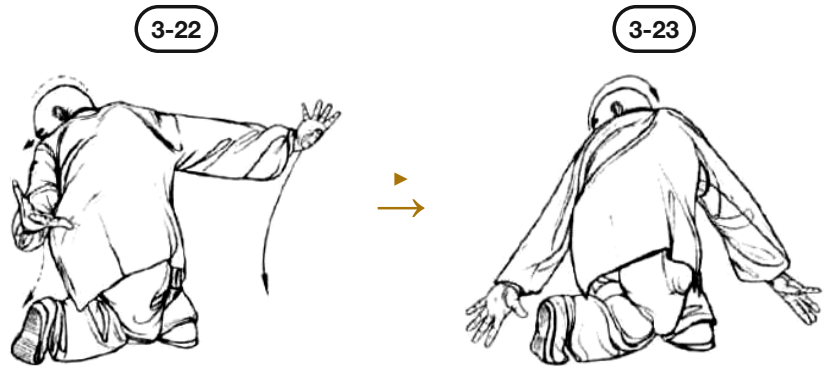

Turn the legs farther left and sink. Incline front-left while extending both palms behind you, palms up and fingers back; turn the head left and look down-left.

Lift the shoulders

BREATHE NATURALLY

Turn both palms down beside the body, fingers down and palms outward. Lift the shoulders, retract the neck, and look back-left.

Look to the sky

BREATHE NATURALLY

Turn the head right, tilt the face upward, and look to the upper-right without forcing the neck.

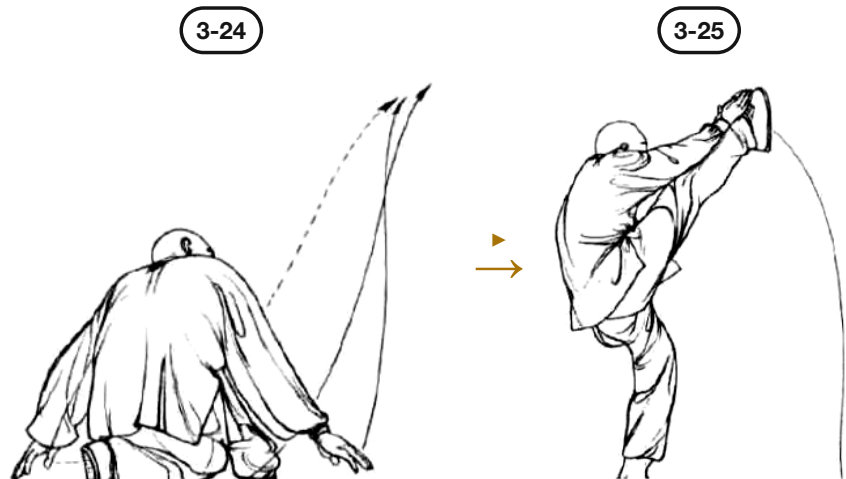

CRANE SOARS TO HEAVEN · 一鹤冲天

Rise and kick

BREATHE NATURALLY

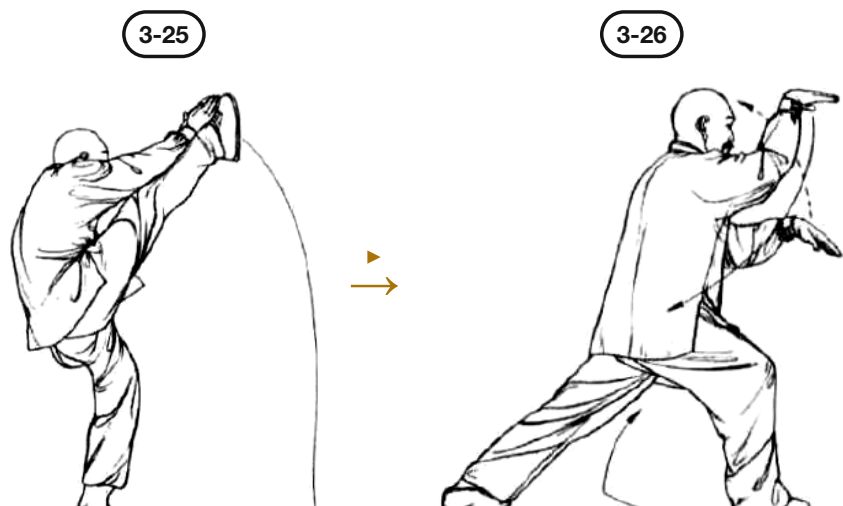

Rise onto the left leg and kick the right foot forward and upward. Meet the right foot with both palms; use a comfortable kick height.

Land and insert palms

BREATHE NATURALLY

Land the right foot forward into a right bow stance. Thread both palms forward, right near the forehead and left near the chest, with softened elbows and wrists.

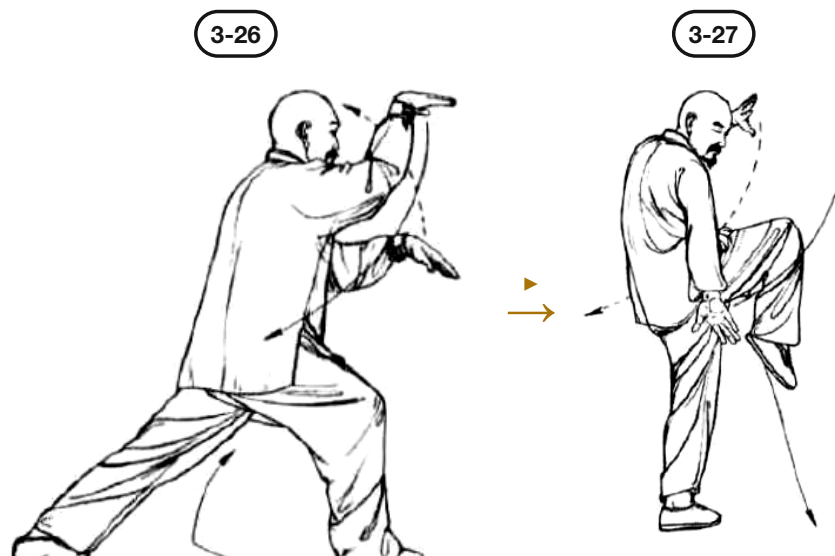

SPIRIT CRANE WALKS THE TRIGRAMS · 灵鹤踏卦

Lift and open

BREATHE NATURALLY

Shift onto the left leg and lift the right knee, toe down. Swing the right arm behind the hip and curve the left arm beside the head; look lower-right.

Enter the circle

BREATHE NATURALLY

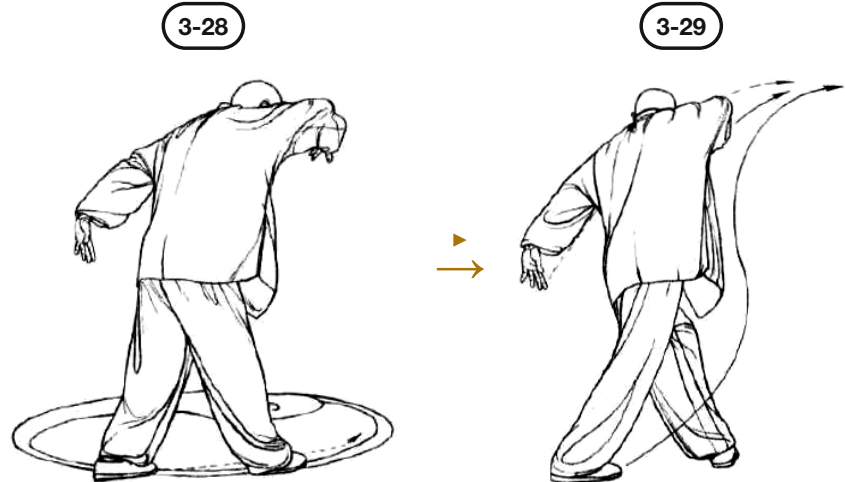

Place the right foot forward with toes turned inward and open the arms, right high and left low. The inset preserves the source's eight-step circular route.

Walk eight steps

BREATHE NATURALLY

Walk eight alternating inward-clasping steps counterclockwise around the circle. Keep the upper body controlled and let the arms follow the illustrated crane-wing shape.

Finish with a swing kick

BREATHE NATURALLY

On the final step, swing the right leg outward. Strike the right foot with the palms in sequence, exactly as shown.
