

Aerial Rear Turn

腾空后转身 · 图 2-69-2-72

1 / 1

FIGURES 2-69-2-72

Follow each row left to right.

A linked jumping turn; learn the pivot and landing on the ground first.

STEP 1

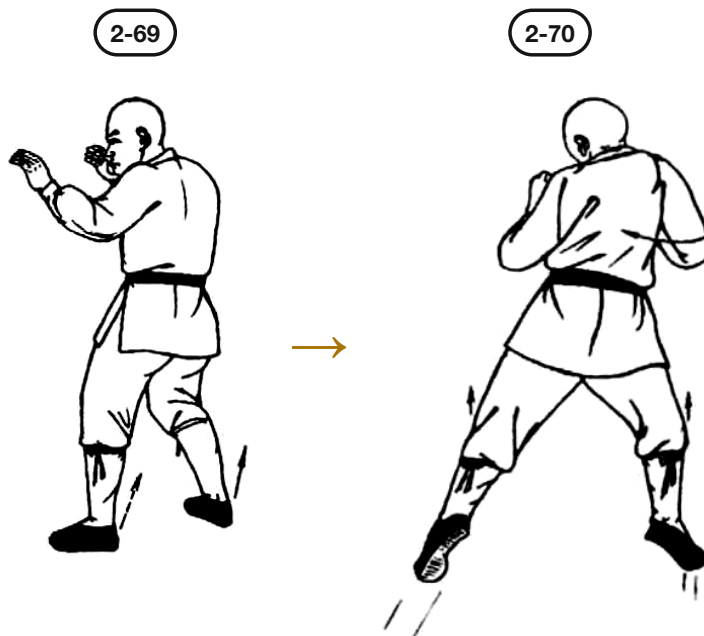

Load the jump

ACTION

Turn toward the rear and bend the knees to prepare the takeoff.

KEY POINT

Keep the floor clear and use minimal height while learning.

STEP 2

Jump and rotate

ACTION

Leave the floor, continue the rearward rotation, and prepare the feet to land.

KEY POINT

Land with bent knees and regain the guard before repeating.
