

Crouching-Step Leg Press

仆步压腿 · 图 1-7

1 / 1
FIGURES 1-7-1-7

Follow each row left to right.

One posture, divided into setup and working position.

STEP 1

Set the stance

ACTION

Squat fully over the right leg.
Extend the left leg sideways with
the toes turned slightly inward.

KEY POINT

Keep the extended knee straight and
the whole foot controlled. Use the
hands for balance as needed.

1-7

STEP 2

Press and alternate

ACTION

Hold the feet or ankles and settle
the hips downward into the
crouching-step shape.

KEY POINT

Work gradually and change sides.
Keep the heel of the squatting leg
grounded when possible.
