

Controlled Leg Hold

控腿 · 图 1-17

1 / 1

FIGURES 1-17-1-17

Follow each row left to right.

A balance-and-control drill rather than a swinging kick.

STEP 1

Lift the knee

ACTION

Stand on the right leg and raise the bent left knee toward the left side.

KEY POINT

Set the standing leg and torso before straightening. Use a support while learning the balance.

1-17

**STEP 2**

Extend and hold

ACTION

Straighten the left leg high to the side and hold it under muscular control.

KEY POINT

Keep the foot level and the supporting leg upright. Lower smoothly and train both sides.
