

Seated Torso-Turn Tu-Na

坐势扭身吐纳法

1 / 3

FIGURES 7-8

Follow each panel left to right.

inhale

exhale

voiced
release

One slow left-and-right cycle. Repeat evenly to both sides.

Set up

legs straight and together

Sit upright. Place the **left palm behind the waist**, palm inward; rest the **right hand on the left shoulder**. Look forward.

7

7

Inhale

deep · through the nose

Turn the head and neck as far left as is comfortable around the body's vertical axis. Look behind to the left.

8

Use the crown-to-perineum line as the turning axis. Do not jerk the neck or force the range.

FIGURES 8-10

Exhale

long · through the nose

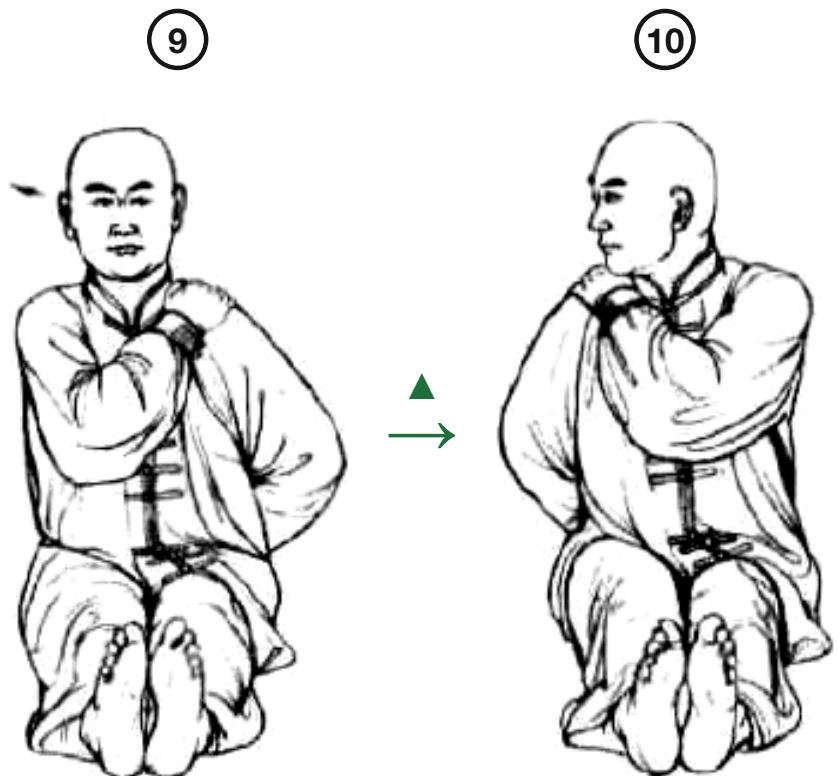

Rotate the upper body back toward the right until the face returns to the front.

Inhale

deep · through the nose

Switch the hands: right palm behind the waist, left hand on the right shoulder. Turn the head and neck right and look behind.

Use the crown-to-perineum line as the turning axis. Do not jerk the neck or force the range.
