

Standing Torso-Turn Tu-Na

站势扭身吐纳法

1 / 2

FIGURES 12-12

Follow each panel left to right.

inhale

exhale

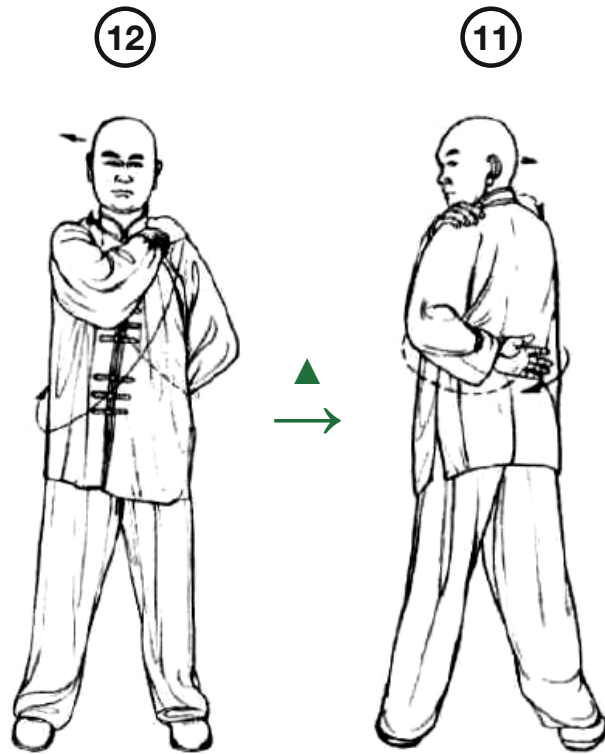

voiced
release

A slow alternating turn. Practise an equal number to each side.

Inhale left

deep · through the nose

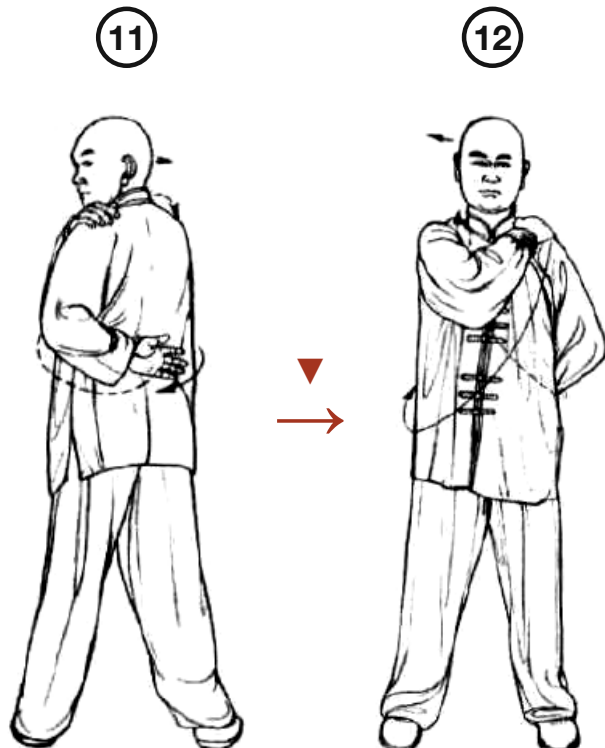

Stand a little wider than shoulder-width. Put the **left palm at the low back** and the **right hand on the left shoulder**; turn left and look behind.

Exhale

long · empty fully

Rotate the torso slowly back to face forward, completing the exhale as you arrive.

Keep the torso tall and the feet rooted. Let the breath set the speed of the turn.

FIGURES 12-12

Inhale right

deep · through the nose

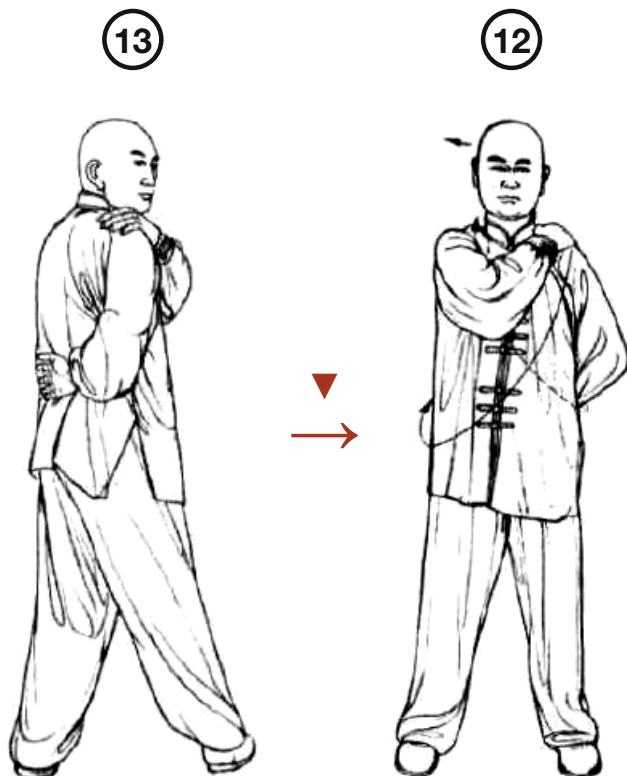

Switch the hands and turn to the right. Look behind without collapsing the posture.

Return

long · then repeat

Come back to the front slowly. Continue for several balanced turns to both sides.

Keep the torso tall and the feet rooted. Let the breath set the speed of the turn.
