

Standing Method · Steps 1–6

SOURCE FIGURES 2-1–2-6

**1 BREATHE NATURALLY**

Feet together; torso upright; palms at sides; gaze forward.

2 DEEP INHALE + LONG EXHALE · REPEAT

Step left slightly wider than shoulders. Hold palms at lower dantian, right palm outside; remain still. Number self-selected.

3 DEEP NASAL INHALE → LONG NASAL EXHALE

Raise palms to ear level, palms down; then slowly spread arms and place palms outside hips, palms out.

4 INHALE BEGINS

Raise arms outward and upward to shoulder height; palms up, fingertips outward.

5 CONTINUE INHALING UNTIL FULL

Bend elbows; bring palms before forehead, fingertips facing, palms down.

6 LONG NASAL EXHALE

Press palms down past face and chest to the lower abdomen.

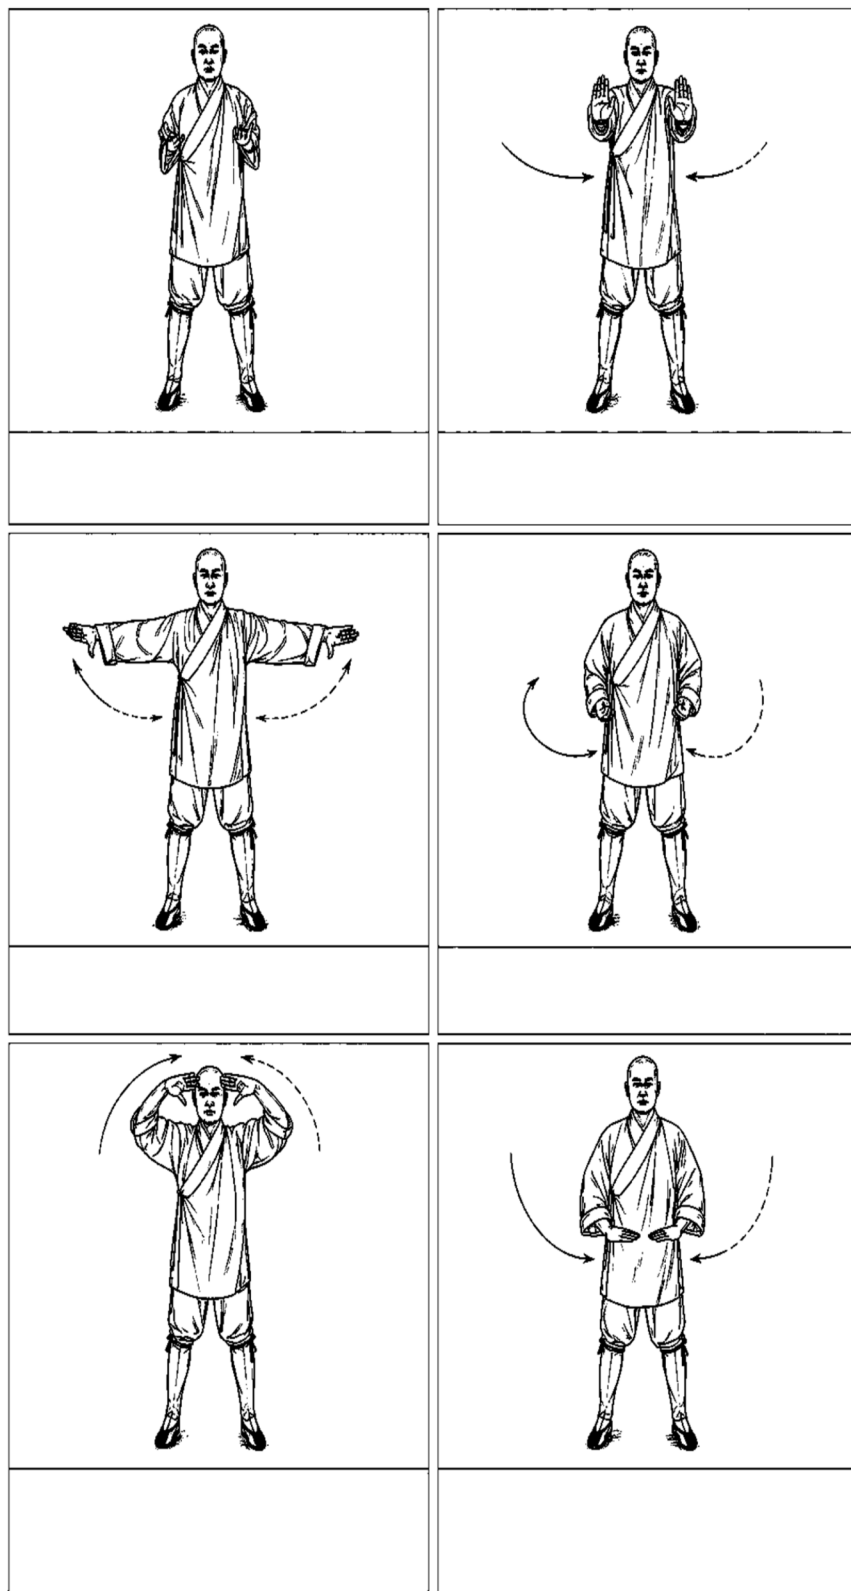

EXACT BREATH TIMELINE

1 natural · 2 several deep-inhale/long-exhale cycles · 3 inhale then exhale · 4→5 one inhale to full · 6 exhale

Every breath phase is written explicitly in black; this edition does not require a color key.

Standing Method · Steps 7–12

SOURCE FIGURES 2-7—2-12

**7 DEEP NASAL INHALE**

Externally rotate palms up; raise them before the armpits, fingertips forward; gaze ahead.

8 LONG NASAL EXHALE

Turn palms and push forward until wrists are shoulder-high; palms forward, fingertips up.

9 INHALE BEGINS

Spread arms left/right at shoulder height; tiger's mouths down, palms backward.

10 CONTINUE INHALING · NO INTERRUPTION

Curl hands into fists and draw them down to the waist; fist interiors up.

11 EXHALE BEGINS

Open fists; arc palms up before forehead, palms down, fingers spread and facing.

12 CONTINUE EXHALING · NO INTERRUPTION

Press both palms down past the chest to the lower abdomen.

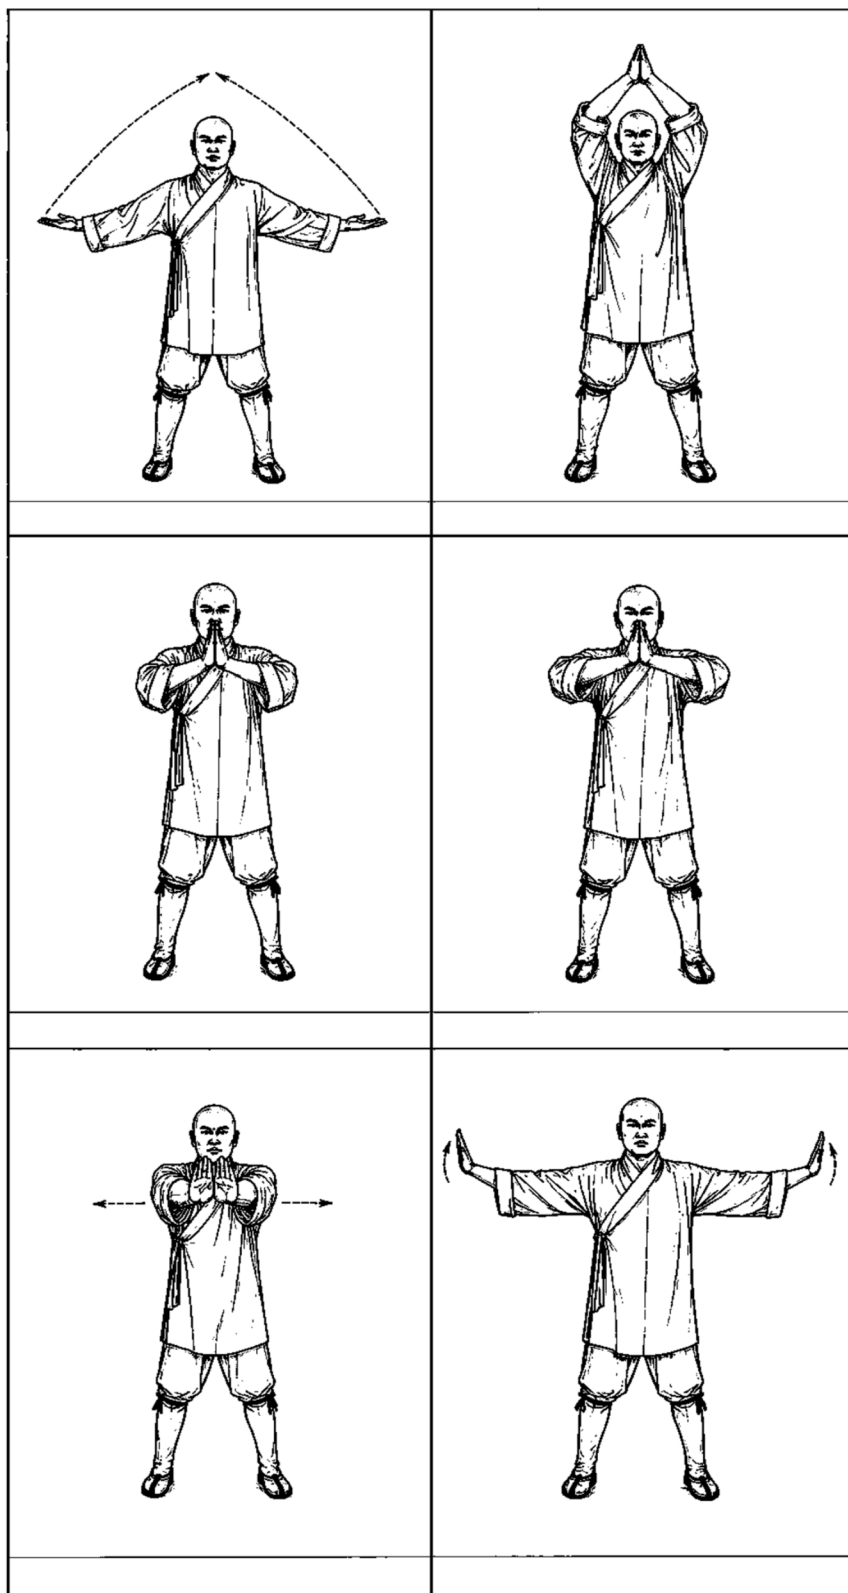

EXACT BREATH TIMELINE

7 inhale · 8 exhale · 9→10 one uninterrupted inhale · 11→12 one uninterrupted exhale

Every breath phase is written explicitly in black; this edition does not require a color key.

Standing Method · Steps 13–18

SOURCE FIGURES 2-13—2-18

**13 INHALE BEGINS**

Open arms left/right at shoulder height; palms up, fingertips outward.

14 CONTINUE INHALING · NO INTERRUPTION

Arc both palms overhead and join them in prayer; fingertips up; gaze ahead.

15 LONG NASAL EXHALE

Sink joined palms to nose height; elbows remain shoulder-high and arms form a half-arc.

16 DEEP NASAL INHALE

Slowly rotate joined palms inward; fingertips align toward the nose, tiger's mouths down.

17 EXHALE BEGINS

Separate palm heels; thumb tips face, index tips meet; push forward to straight arms.

18 CONTINUE EXHALING · NO INTERRUPTION

Separate hands sideways; wrists shoulder-high, vertical palms outward, fingertips up.

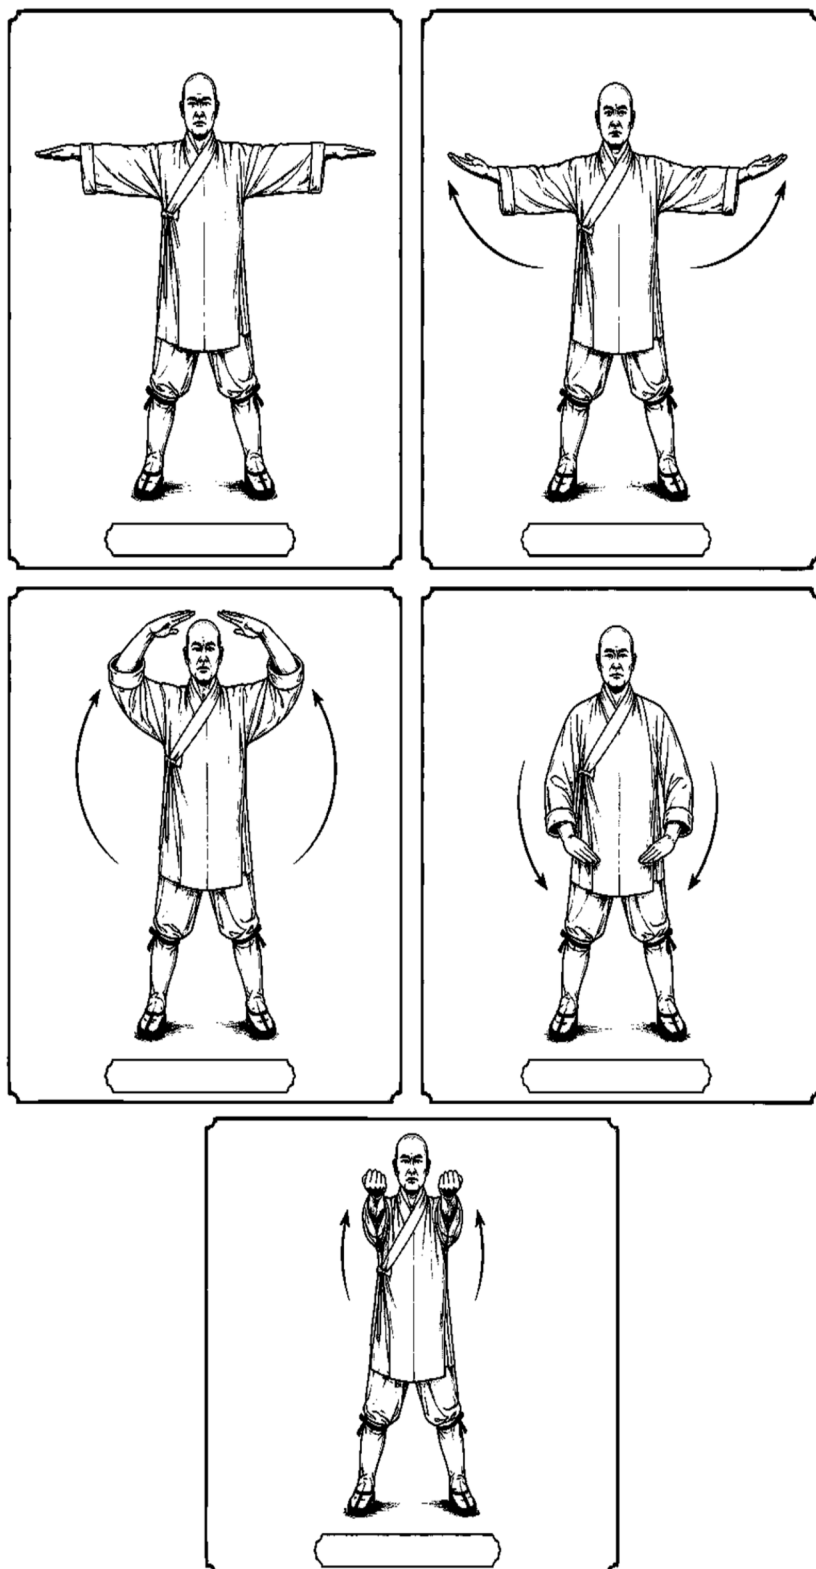

EXACT BREATH TIMELINE

13→14 one uninterrupted inhale · 15 exhale · 16 inhale · 17→18 one uninterrupted exhale

Every breath phase is written explicitly in black; this edition does not require a color key.

Standing Method · Steps 19–23

SOURCE FIGURES 2-19—2-23

**19 DEEP NASAL INHALE BEGINS**

Sink hands; extend palms/fingers flat so shoulders, arms, and palms form one line.

20 CONTINUE INHALING · NO INTERRUPTION

Turn both palms upward; fingertips point outward; gaze ahead.

21 CONTINUE INHALING · NO INTERRUPTION

Raise and draw palms inward above forehead; fingertips face, palms down.

22 CONTINUE INHALING · NO INTERRUPTION

Press palms down past chest to the waist sides; fingertips face.

23 LONG NASAL EXHALE

Form fists and raise them forward on straight, shoulder-high arms; fist interiors up.

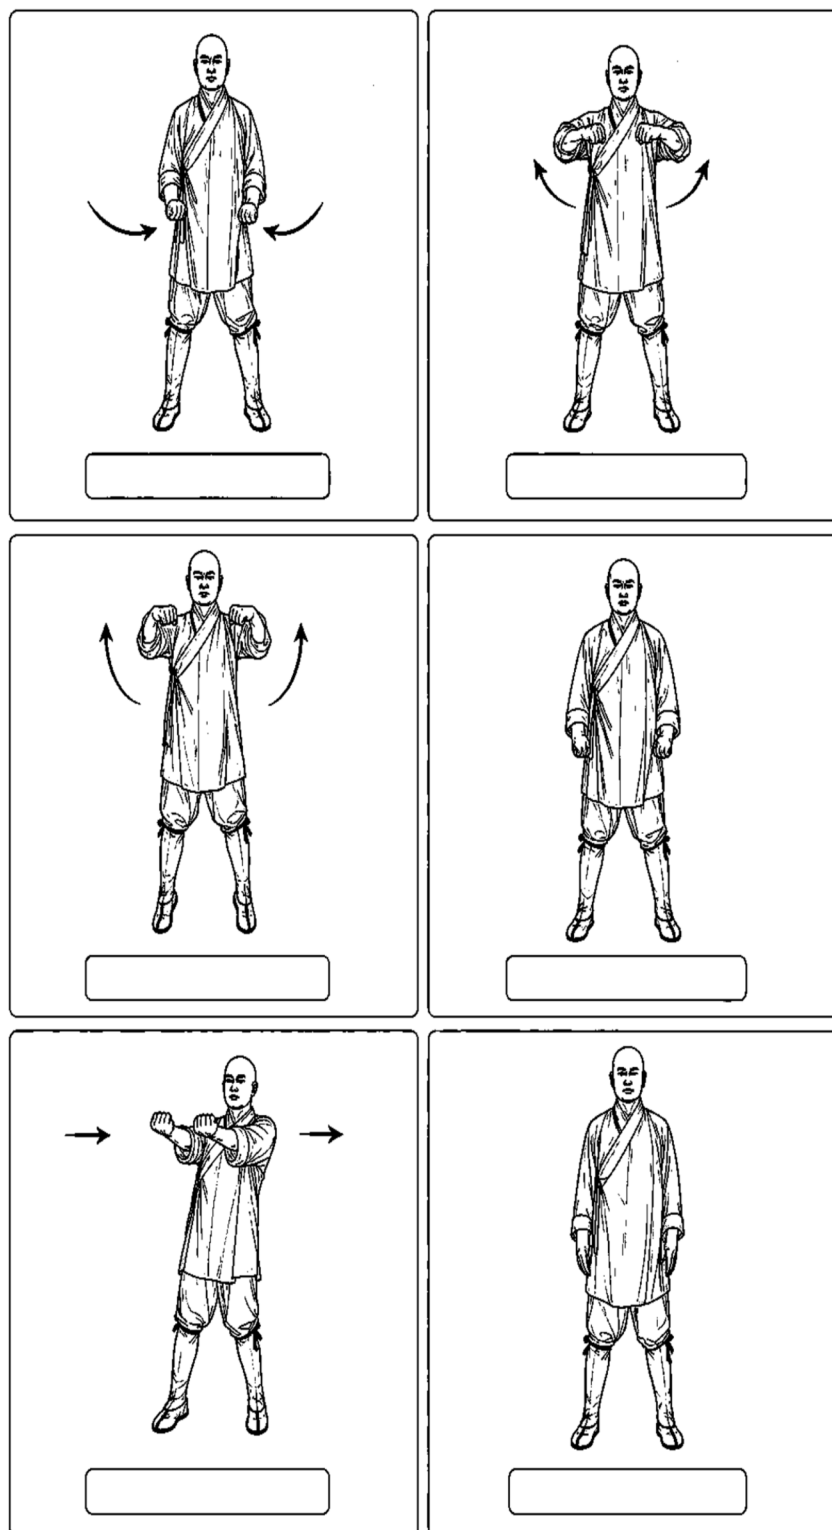

EXACT BREATH TIMELINE

19→20→21→22 = ONE UNINTERRUPTED INHALATION · 23 = long exhalation · the source does not instruct a hold

Every breath phase is written explicitly in black; this edition does not require a color key.

Standing Method · Steps 24–29

SOURCE FIGURES 2-24—2-29

**24 DEEP NASAL INHALE BEGINS**

Turn fists inward and withdraw to waist sides; fist interiors down.

25 CONTINUE INHALING · NO INTERRUPTION

Lift fists before chest; fist faces oppose each other, interiors down.

26 CONTINUE INHALING · NO INTERRUPTION

Pull fists before shoulders while lifting both heels; support on balls of feet.

27 LONG NASAL EXHALE

Slowly return fists to waist, interiors down; lower both heels.

28 DEEP NASAL INHALE

Push fists forward at shoulder height; upper body leans slightly back, fist interiors up.

29 LONG NASAL EXHALE → EVEN BREATH

Open fists, lower palms to sides; relax whole body, regulate breath until even, and close.

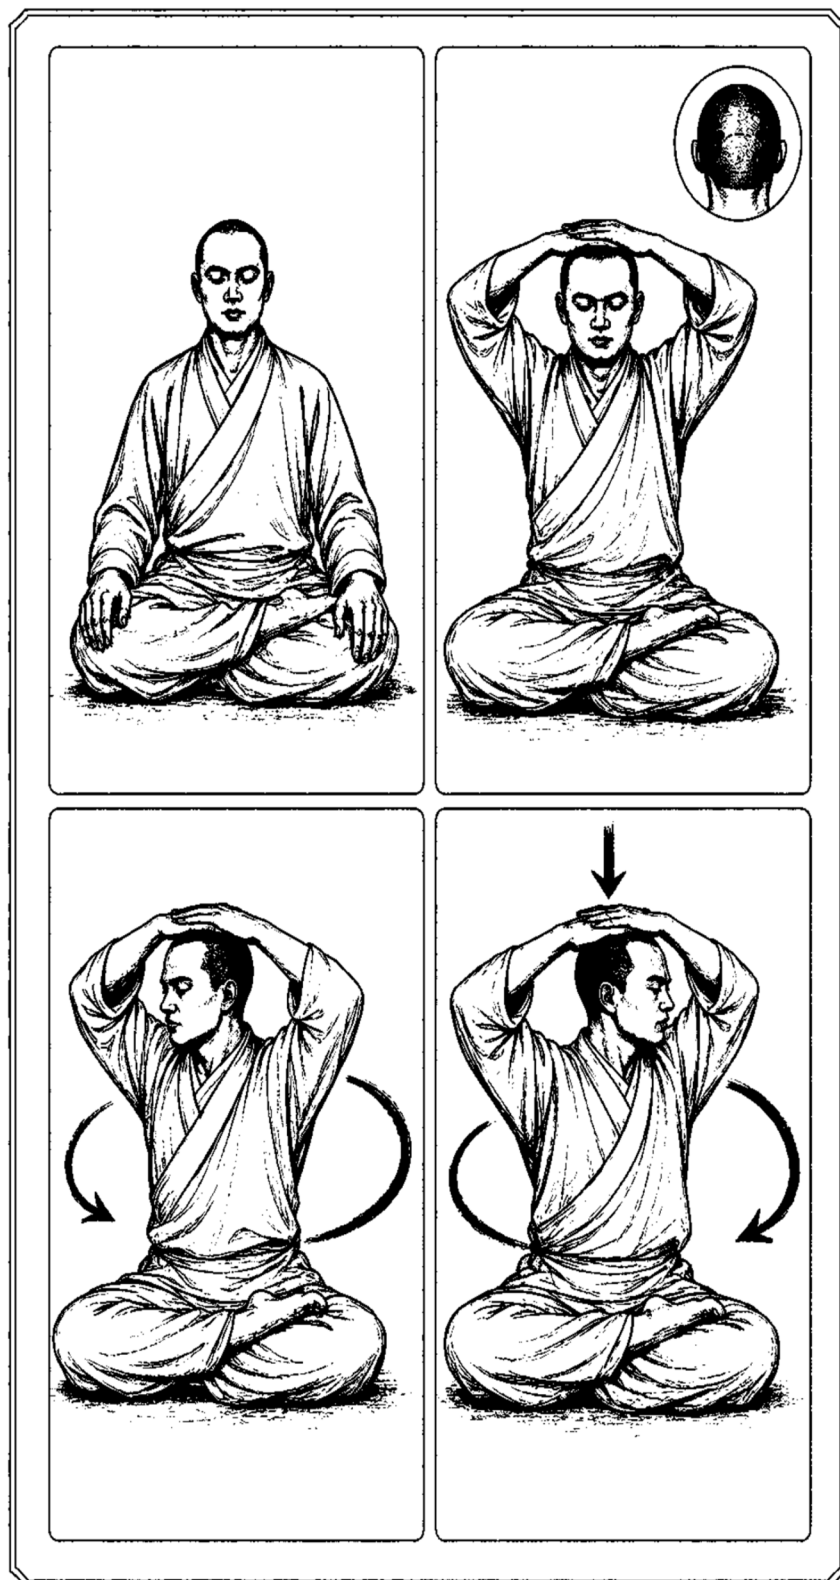

EXACT BREATH TIMELINE

24→25→26 one uninterrupted inhale · 27 exhale · 28 inhale · 29 exhale, then regulate breathing until even

Every breath phase is written explicitly in black; this edition does not require a color key.

Circulating the Four Cong Points

SOURCE FIGURES 2-30—2-31

**1 NO EXPLICIT BREATH CUE**

Settle in half-lotus/single-cross-legged seat; palms on knees; upper body upright.

2A COORDINATE WITH TU-NA

Align palm Laogong (PC8) to crown Baihui (GV20); whole palm covers Sishencong (EX-HN1).

2B ONE DEEP, LONG BREATH PER FULL CIRCLE

Overlap palms: men left underneath; women right underneath. Rotate left several circles, then right several.

AFTER SLOW MOTION · DEEP, LONG BREATHING

After several rotations, press firmly on the crown several times.

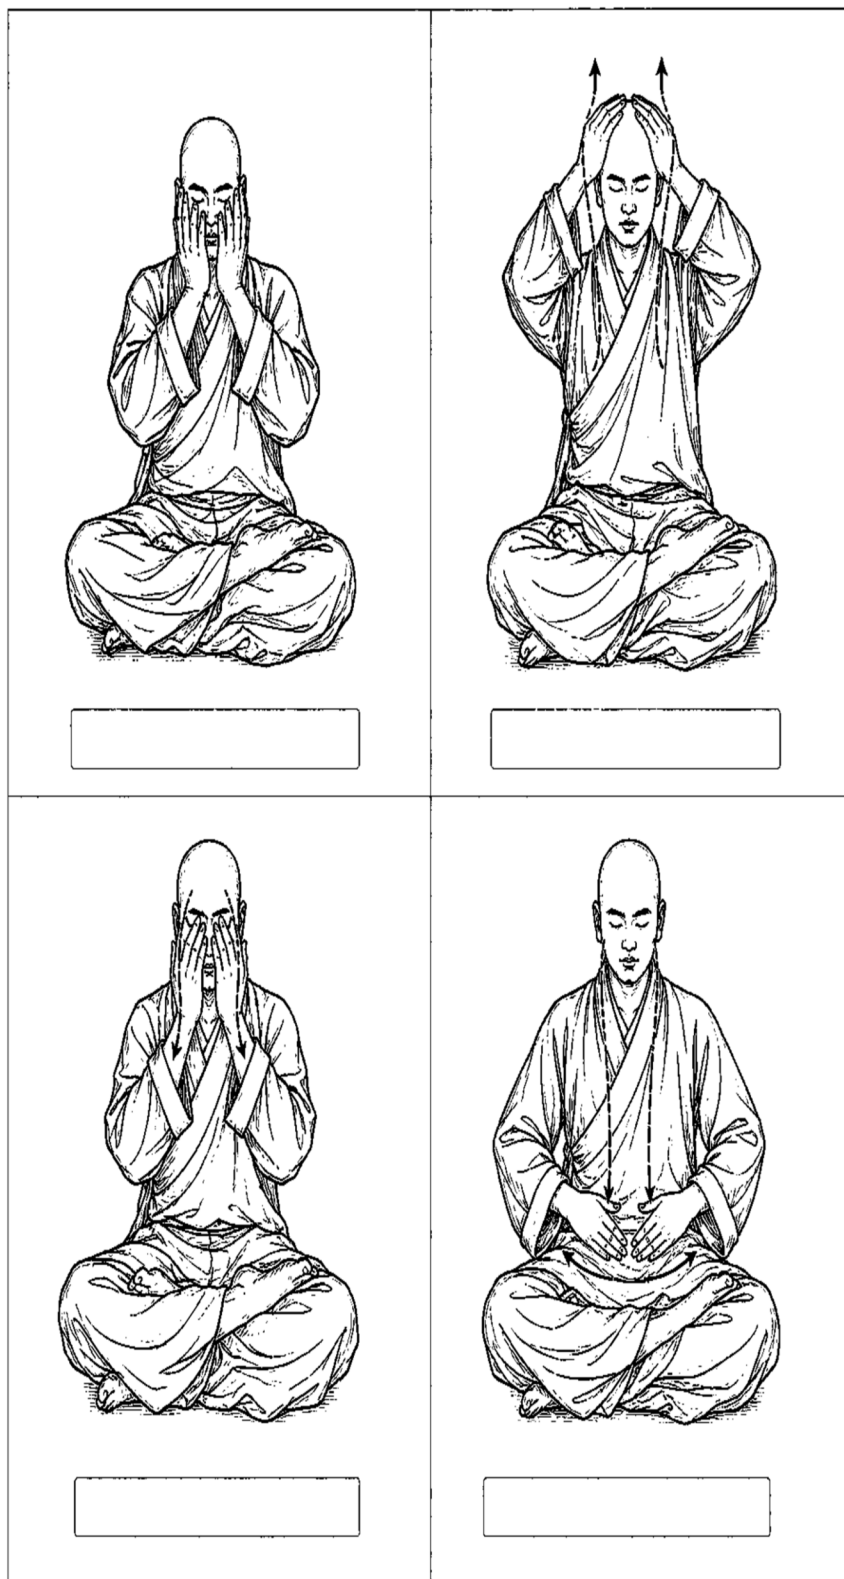

EXACT BREATH TIMELINE

Every complete circle receives one deep, long breath. The source does NOT divide inhale/exhale between halves of a circle.

Every breath phase is written explicitly in black; this edition does not require a color key.

Sun and Moon Shining Bright

SOURCE FIGURES 2-32—2-35

**1 DEEP NASAL INHALE BEGINS**

Palms lightly cover face; palm heels below cheekbones, palm centers over cheekbones.

2 CONTINUE INHALING UNTIL FULL

Push palms upward like washing the face until middle fingers reach Qianding (GV21).

3 LONG NASAL EXHALE BEGINS

Press and rub both palms downward over the face.

4 NO NEW CUE · FOLLOWS DOWNWARD EXHALE PHASE

At Ruzhong (ST17), turn fingertips down; descend to Qichong (ST30), then rub abdomen horizontally.

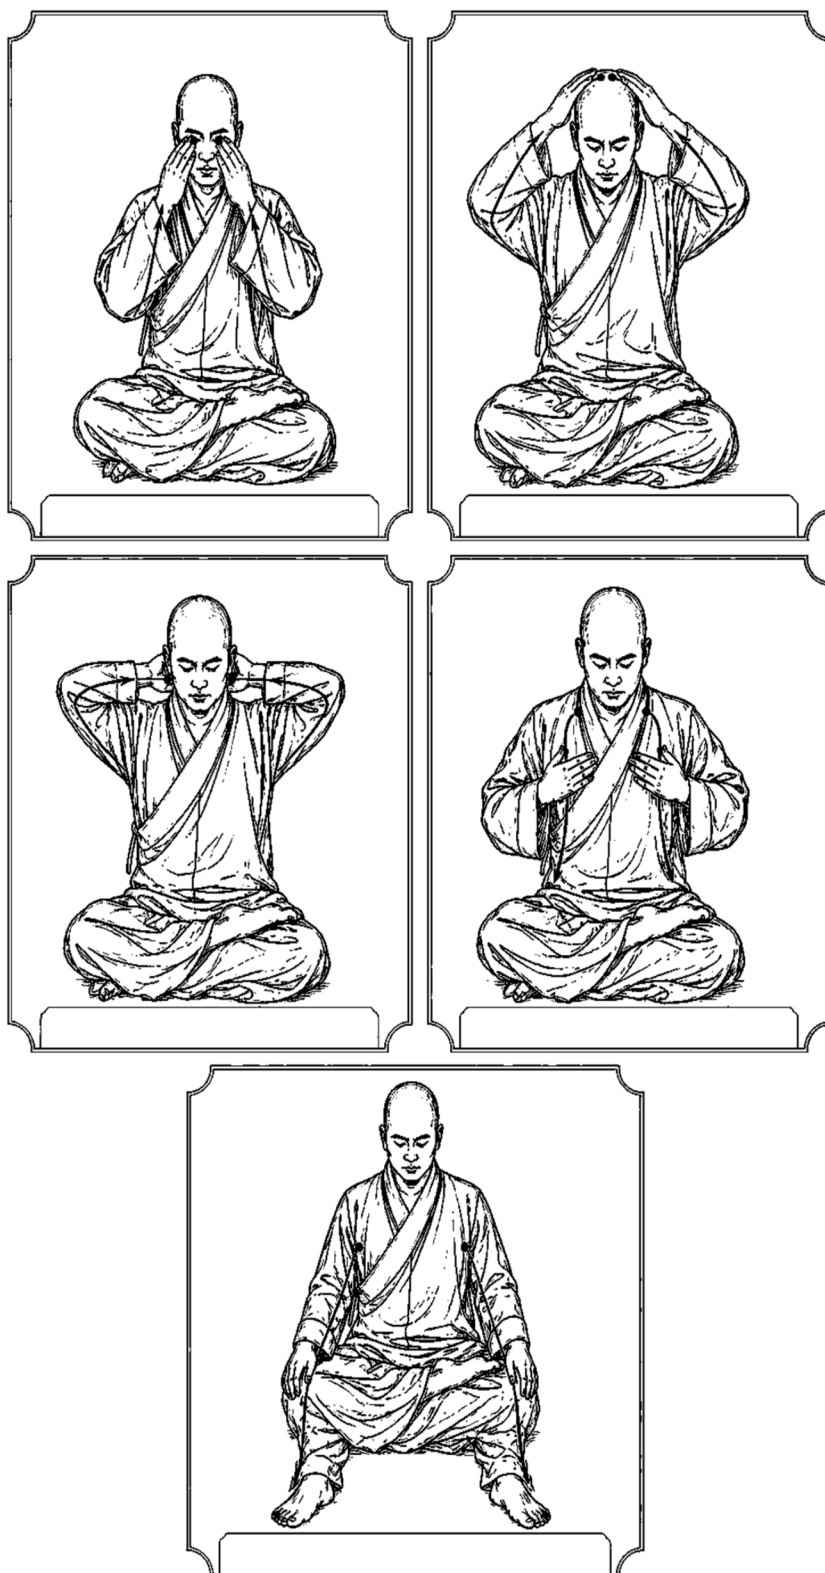

EXACT BREATH TIMELINE

1→2 one inhale to full · 3 starts the exhale · 4 continues the downward movement with no new breath wording · source: one EXHALE then one INHALE per repetition

Every breath phase is written explicitly in black; this edition does not require a color key.

Descent of the Two Yang Channels

SOURCE FIGURES 2-36—2-40

**1 DEEP NASAL INHALE BEGINS**

Raise hands; press little-finger pads to Jingming (BL1) at inner eye corners.

2 CONTINUE DEEP INHALE · NO INTERRUPTION

Move both palms upward over the crown.

3 CONTINUE INHALING UNTIL FULL

Trace down/back to Fengchi (GB20) at the base of the skull.

4 LONG NASAL EXHALE BEGINS

Turn palms inward and descend past the collarbones.

5 NO NEW CUE · PHYSICAL DESCENT CONTINUES

Pass GB22, GB24, GB25, GB30 and continue to Zuqiaoyin (GB44). Do not strain.

EXACT BREATH TIMELINE

1→2→3 one continuous deep inhale to full · 4 begins a long exhale · 5 continues the route but supplies no new breath phrase

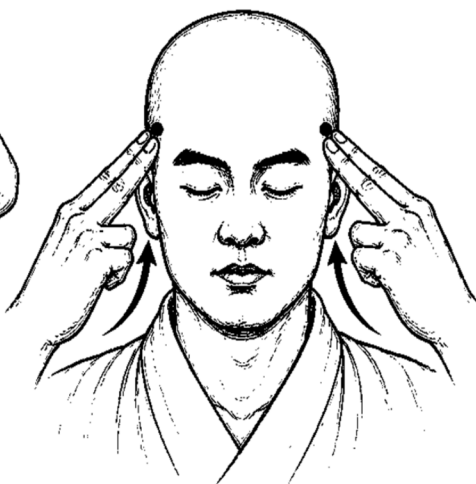

Every breath phase is written explicitly in black; this edition does not require a color key.

Turning at Tinggong · Hearing Palace

SOURCE FIGURES 2-41—2-43

**1 NASAL INHALE BEGINS**

Use sword fingers at Tinggong (SI19) and Tinghui (GB2) in front of the ears.

**2 CONTINUE INHALING UNTIL FULL**

Push upward past Ermen (TE21) to Touwei (ST8) and Toulinqi (GB15).

**3 LONG NASAL EXHALE**

Move sword fingers downward, point-pressing or rubbing the points beside the ears.

EXACT BREATH TIMELINE

1→2 one inhale to full · 3 one long nasal exhale · repeat

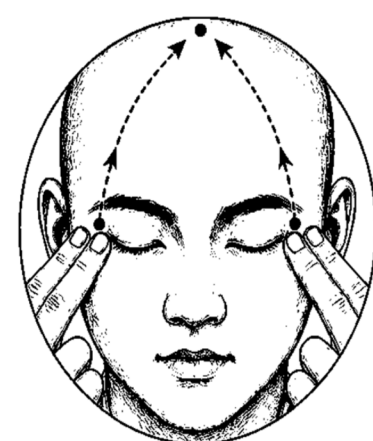

Every breath phase is written explicitly in black; this edition does not require a color key.

Circulation of the Five Wheels

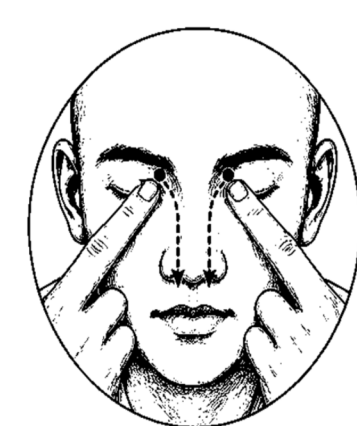

SOURCE FIGURES 2-44—2-46

**1 DEEP NASAL INHALE BEGINS**

Press sword fingers at Chengqi (ST1), directly below the eye sockets.

**2 CONTINUE INHALING UNTIL FULL**

Circle outward/up through GB1, Yuwei, TE23, EX-HN4, GB14 to Toulinqi (GB15).

**3 NASAL EXHALE**

Move inward/down through BL3, BL4, BL2; rub inner eye corners, then descend nose bridge.

EXACT BREATH TIMELINE

1→2 one inhale to full · 3 one nasal exhale · one inhale + one exhale = one repetition

Every breath phase is written explicitly in black; this edition does not require a color key.

Tap the Teeth Audibly

SOURCE FIGURE 2-47 + SUPPLEMENTARY VIEW

SET NO EXPLICIT BREATH CUE

Place both palms on the knees.

TAP NO EXPLICIT BREATH CUE

Tap upper and lower teeth together slowly, producing an audible clicking sound; do not grind.

REPEAT NO EXPLICIT BREATH CUE

The source says warmth and saliva should develop; if no warmth is felt, the taps may be doubled.

EXACT BREATH TIMELINE

The source assigns NO inhale/exhale timing to the tooth taps. Do not add one.

Every breath phase is written explicitly in black; this edition does not require a color key.

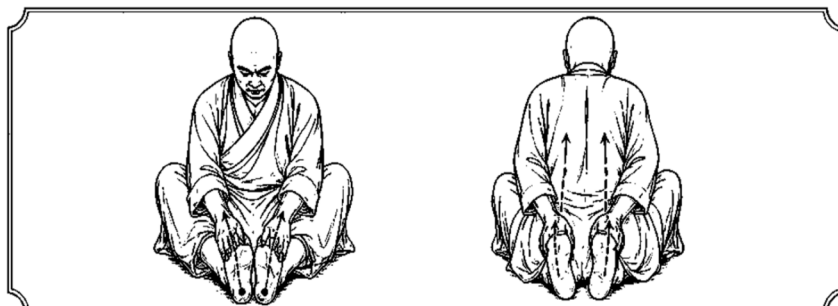

Fire Refines the Golden Elixir

SOURCE FIGURES 2-48—2-52

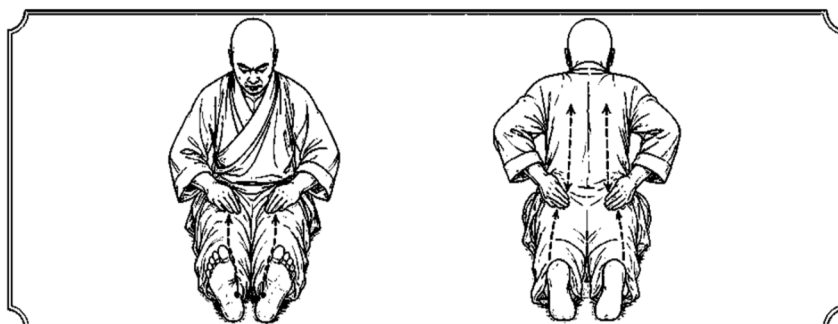

1 NO EXPLICIT BREATH CUE

Outer foot edges meet, soles up, knees curved like a full moon; fingertips rub sole centers.

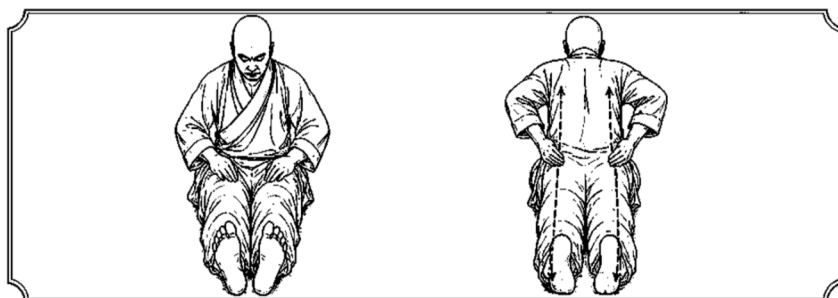

2A DEEP NASAL INHALE

Lift toes and gradually straighten legs; hands begin at Yongquan (KI1).

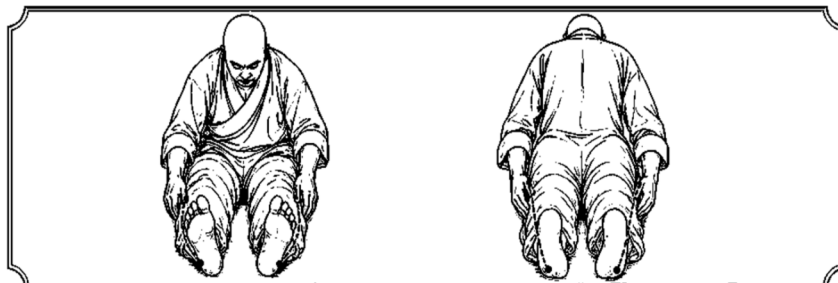

2B SAME INHALE PHASE

Rub up inner-leg Kidney routes, past groin creases, to Mingmen (GV4) at the waist.

3A NASAL EXHALE

Rub along the Foot-Taiyang Bladder routes on the return.

3B SAME EXHALE PHASE

Continue to Zhiyin (BL67) at the lateral tips of the fifth toes.

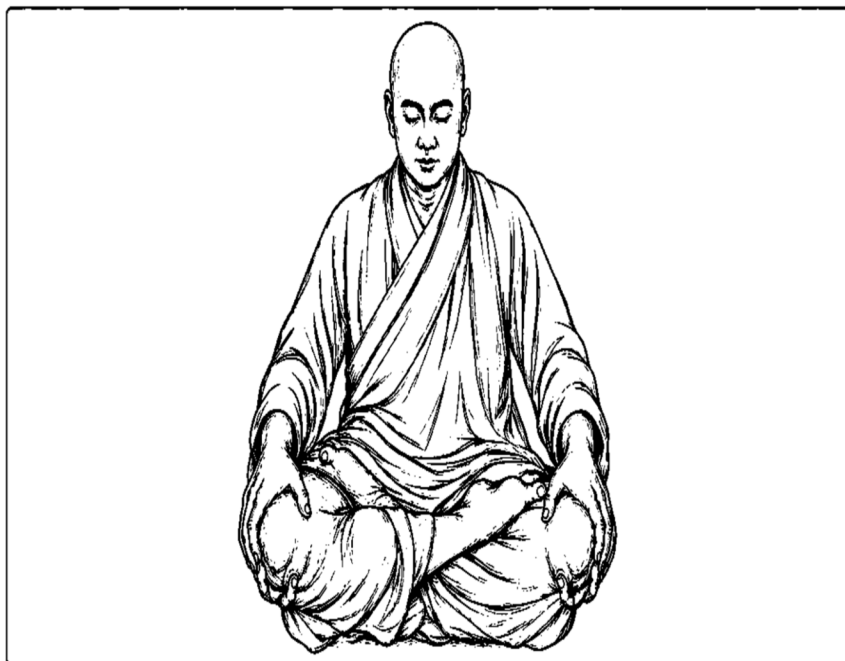

EXACT BREATH TIMELINE

Step 1 uncued · Step 2 = inhale, Yongquan→inner legs→Mingmen · Step 3 = exhale, Bladder route→Zhiyin

Every breath phase is written explicitly in black; this edition does not require a color key.

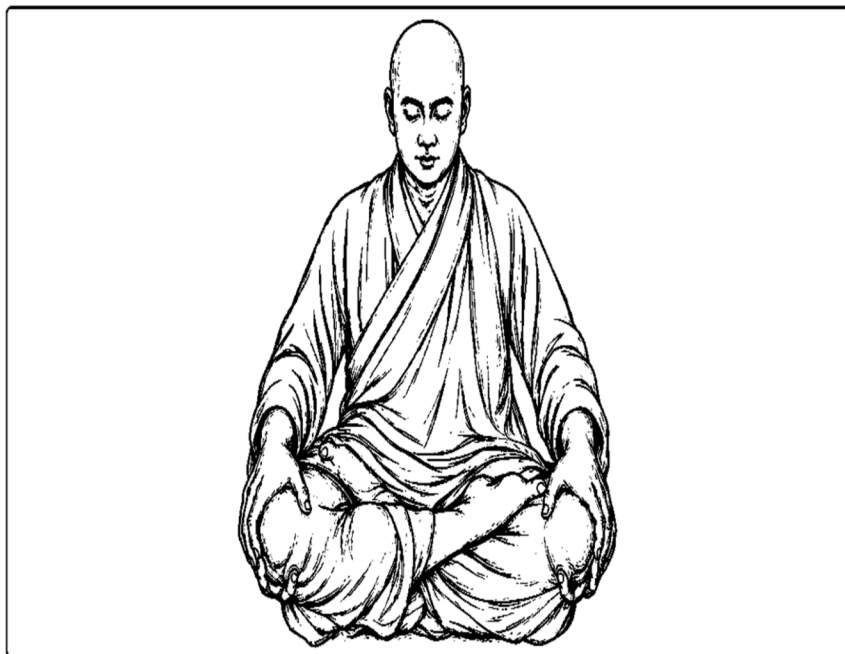

Heat Dispersal at Heding · Crane's Crown

SOURCE FIGURES 2-53—2-54

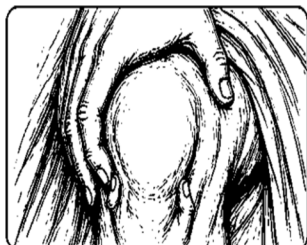

1 DEEP NASAL INHALE · INSIDE → OUTSIDE

Palm Laogong (PC8) rests over Heding (EX-LE2); index/ring fingers hook Dabi (ST35). Rub outward.

2 LONG NASAL EXHALE · OUTSIDE → INSIDE

Reverse the massage direction and rub inward.

EXACT BREATH TIMELINE

Inside→outside on the inhale · outside→inside on the exhale · together they complete exactly ONE full massage circle

Every breath phase is written explicitly in black; this edition does not require a color key.

Revolving Qian and Kun · Heaven and Earth

SOURCE FIGURES 2-55—2-61

1 NASAL INHALE BEGINS

Raise palms forward/up, palms facing up.

2 CONTINUE INHALING · NO INTERRUPTION

Rotate while raising; form claws and press down at Jianjing (GB21).

3 NASAL EXHALE BEGINS

Open claws to palms; rub from armpits backward/down along Qihu (ST13).

4 CONTINUE LONG EXHALE UNTIL FINISHED

Hegu (LI4) to Shenshu (BL23); spread fingers, bow forward, extend arms back.

5 NASAL INHALE BEGINS

Arc palms from sides forward/up to chest; externally rotate palms up.

6 CONTINUE DEEP INHALE UNTIL FULL

Bend elbows; palms inward, fingertips down; align PC8 toward Quze (PC3).

7 NASAL EXHALE

Turn palms outward, spread fingers, push forward in a half-arc at Renzhong height.

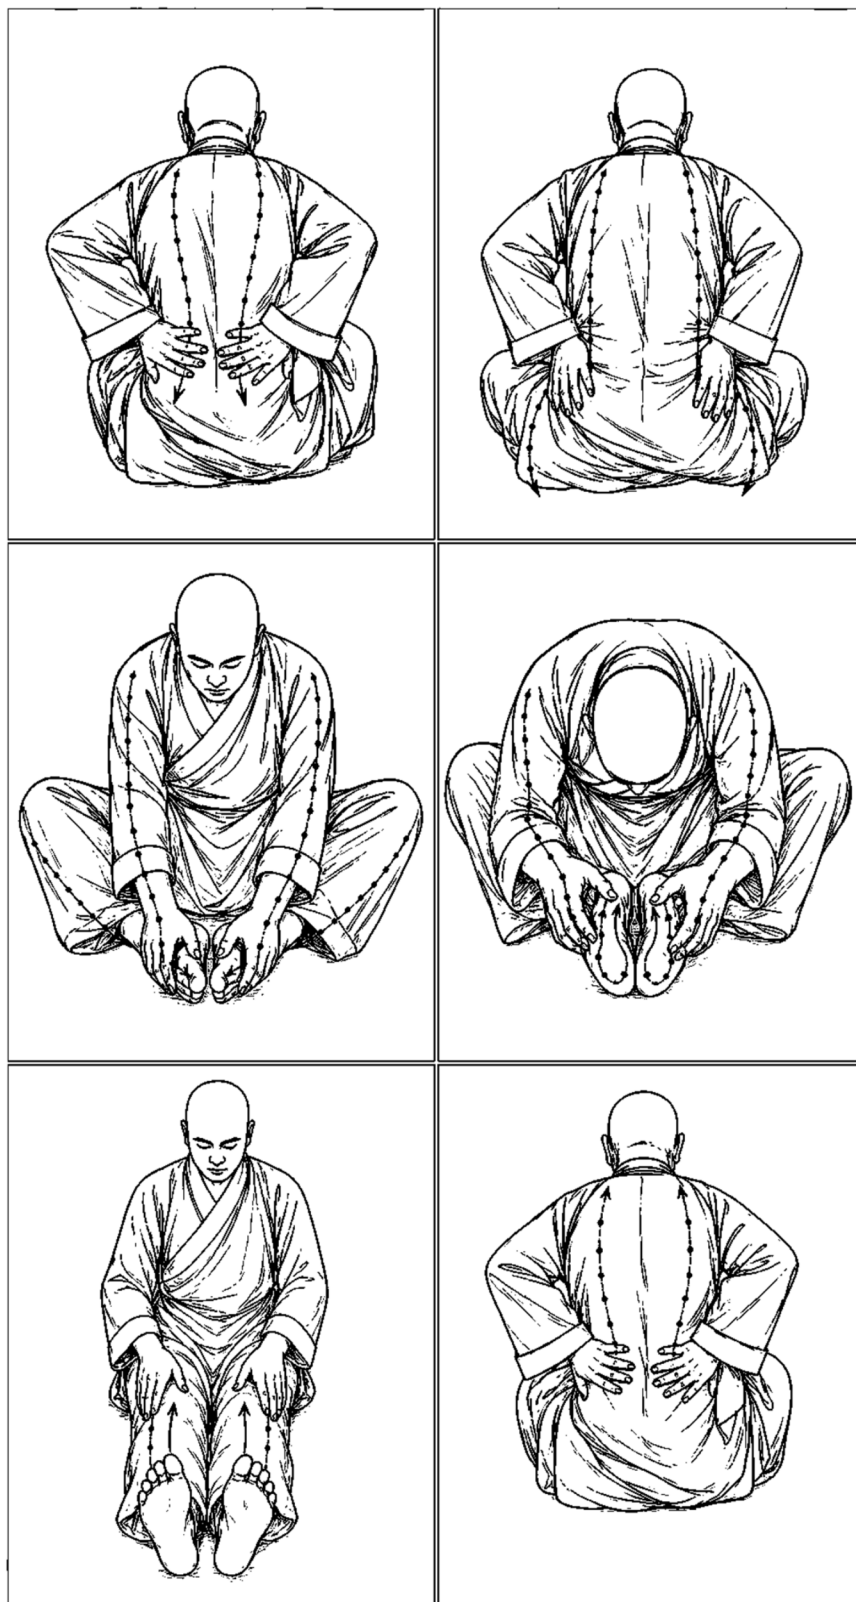

EXACT BREATH TIMELINE

1→2 one uninterrupted inhale · 3→4 exhale to completion · 5→6 inhale to full · 7 exhale

Every breath phase is written explicitly in black; this edition does not require a color key.

Azure Dragon Probes Its Head

SOURCE FIGURES 2-62—2-66

**1 NO EXPLICIT BREATH CUE**

Press palms behind waist at Shenshu (BL23) and Zhishi (BL52).

2 BREATHE NATURALLY

Trace and press downward along the Foot-Taiyang Bladder route.

3 NO NEW CUE · NATURAL IS THE ONLY STATED PATTERN

Bend waist/knees; follow outer-leg Gallbladder routes to feet; thumbs press Gongsun (SP4).

4 NO NEW BREATH CUE

Reach head/torso forward; grip toes inward, then rub Yongquan (KI1) on soles.

5 NO NEW BREATH CUE

Extend legs forward; draw hands back along inner legs.

6 NO NEW BREATH CUE

Return hands past lower abdomen to waist; restore head/waist to the opening posture.

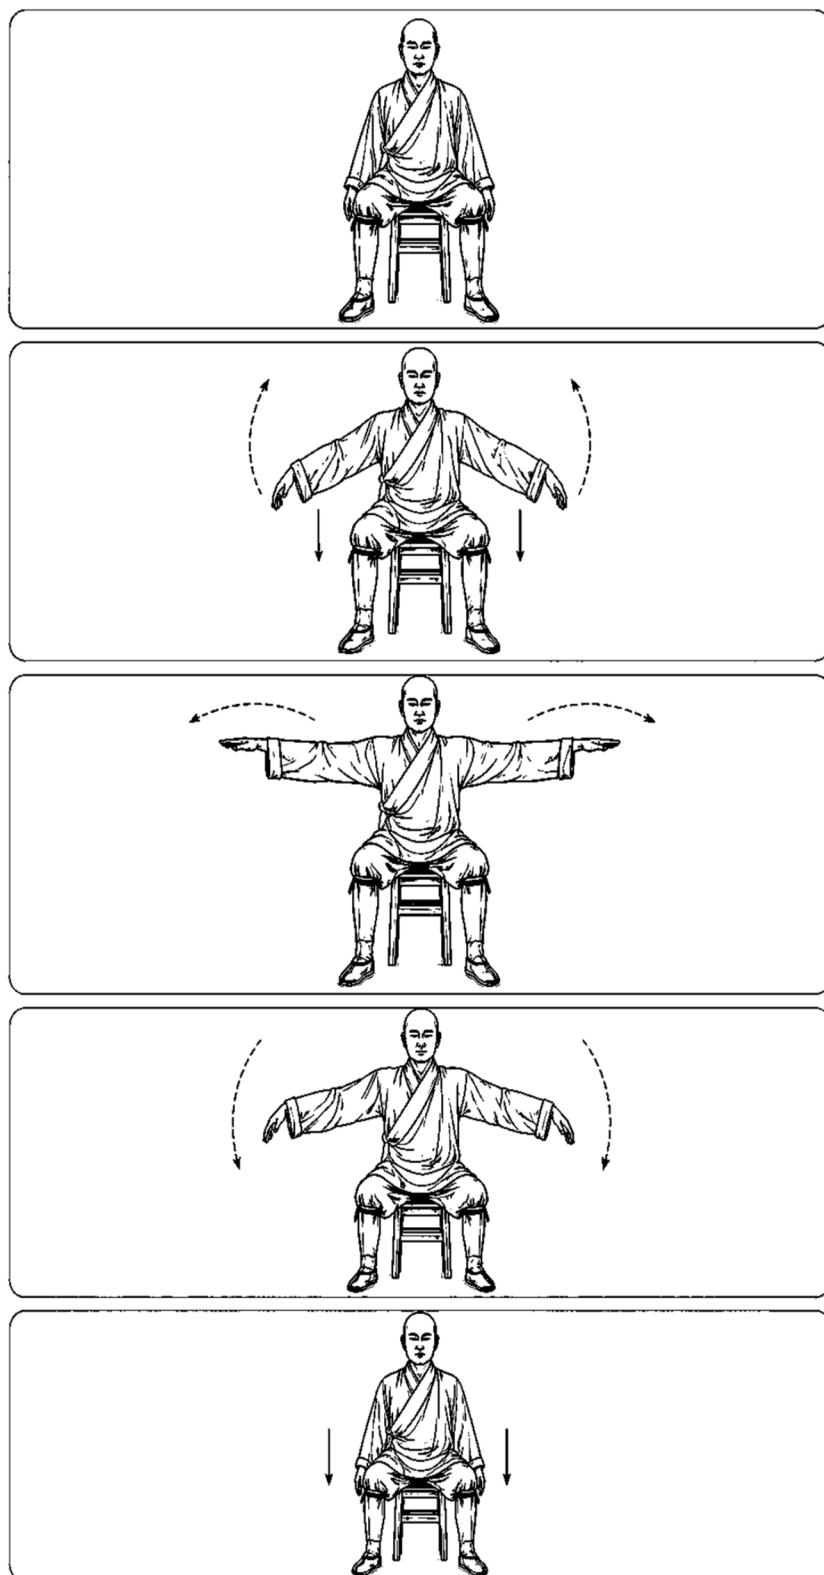

EXACT BREATH TIMELINE

Only one breath instruction appears: **NATURAL TU-NA/BREATHING** in Step 2. No later movement is assigned to a specific inhale or exhale.

Every breath phase is written explicitly in black; this edition does not require a color key.

Immortal Crane Soars into the Air

SOURCE FIGURES 2-67—2-71

**1 NO EXPLICIT BREATH CUE**

Sit on a stool, feet flat; relax palms and let arms hang at sides.

2 DEEP NASAL INHALE AS ARMS RISE

Sink shoulders, drop elbows, contain chest, lengthen back; lift arms sideways, fingertips down.

3 CONTINUE INHALING UNTIL FULL

At shoulder height, extend fingers and flatten palms.

4A EXHALE AS ARMS FALL

Let both arms descend naturally and very slowly.

4B SAME FALLING / EXHALE PHASE

Return arms to relaxed sides; repeat one rise and one fall with each breath cycle.

EXACT BREATH TIMELINE

2→3 one inhale to full while arms rise · 4 one exhale while arms slowly fall · movement remains light, gentle, and natural

Every breath phase is written explicitly in black; this edition does not require a color key.
