English

Step the left foot one step horizontally to the left, leaving the feet slightly more than shoulder-width apart; at the same time, draw in both open hands and hold them at the *dantian* (lower abdomen), with the right palm on the outside. After the posture has been set, remain still. Perform several deep inhalations and prolonged exhalations; determine the number yourself. (Figure 2-2.)

3. 以鼻深吸；两掌分开向上提起，掌心向下，约与耳平。随即，以鼻长呼；两臂向两侧缓缓摊开，两掌置于两胯外侧，掌心向外，虎口向后。（图2-3）

4. 以鼻深吸；两掌向外上提展臂，掌心向上，指尖向外，高与肩平。（图2-4）
